NOW Journal 02/2016

Dear Sir or Madam,

In around a month from now, the third specialist conference of the Federal Ministry of Transport and Digital Infrastructure will take place in Aachen, Germany. Take a look in this issue of the NOW Journal to find out exactly what is on the agenda of “On-Site Electromobility”. On 8 and 9 March, experts will speak on subjects including fleets, infrastructure, commercial transportation, carsharing, battery safety and more.

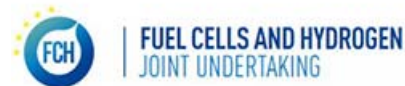

Hydrogen as an alternative fuel also continues to pick up speed – and also received some prominent support at the beginning of this year from actor and committed environmentalist Hannes Jaenicke. Together with Norbert Barthle, BMVI Parliamentary State Secretary, a new nationwide campaign for Germany was kicked off.

Best regards,
Your NOW Team
