PRESS RELEASES

Kurt-Christoph von Knobelsdorff becomes new managing director of NOW GmbH

The supervisory board of NOW GmbH has appointed Kurt-Christoph von Knobelsdorff as managing director (Chair) and spokesman of the management board with effect from 15 May 2020. He will thus stand alongside the Managing Director Wolfgang Axthammer, who has been solely responsible for the GmbH for the past nine months ...

Electric mobility: BMVI with a further call for funding to expand charging infrastructure

Private investors, cities and municipalities can now once again submit applications for funding for the development of charging infrastructure for electric vehicles. As part of its fifth call for funding for the "Charging infrastructure for electric vehicles in Germany" funding guideline, the Federal Ministry of Transport and Digital Infrastructure (BMVI) is providing funding support towards the establishment of up to 7,000 normal and 3,000 fast charging points in Germany ...

Work on establishing the German National Centre for Charging Infrastructure is progressing well

Simple, uniform, reliable and convenient: This is how a high-performance, nationwide charging network for electric mobility must be designed, taking the needs of consumers into account and thus facilitating the transition to clean mobility. The development of such a charging network is the goal of the German Centre for Charging Infrastructure, which NOW GmbH has been establishing since January 2020 ...

Osnabrück city police on patrol with hydrogen

A hydrogen patrol car with 100 percent fuel cell technology is now in use in Osnabrück. Besides Berlin, this makes it one of the first police departments in Germany to do so. With its alternative drive technology, the vehicle, which is completely free of locally produced CO2 emissions, will be tested for its suitability for everyday use in emergency and patrol services for one year ...

Berlin's BVG commence test operation with articulated e-buses

The Berlin Transport Authority (BVG) is taking electric mobility to a new level with the "E-MetroBus" project. With the Solaris Urbino 18 electric, the first fully-electric articulated bus has recently joined Germany's largest city bus fleet. 16 more will follow in the coming weeks. After a short test run, the new articulated e-buses are to take over all journeys on route 200 from summer onwards, thus ensuring even better air in the city centre ...
