

Wasserstoff als tragende Säule der Energiewende

Wie gelingt der Durchbruch?

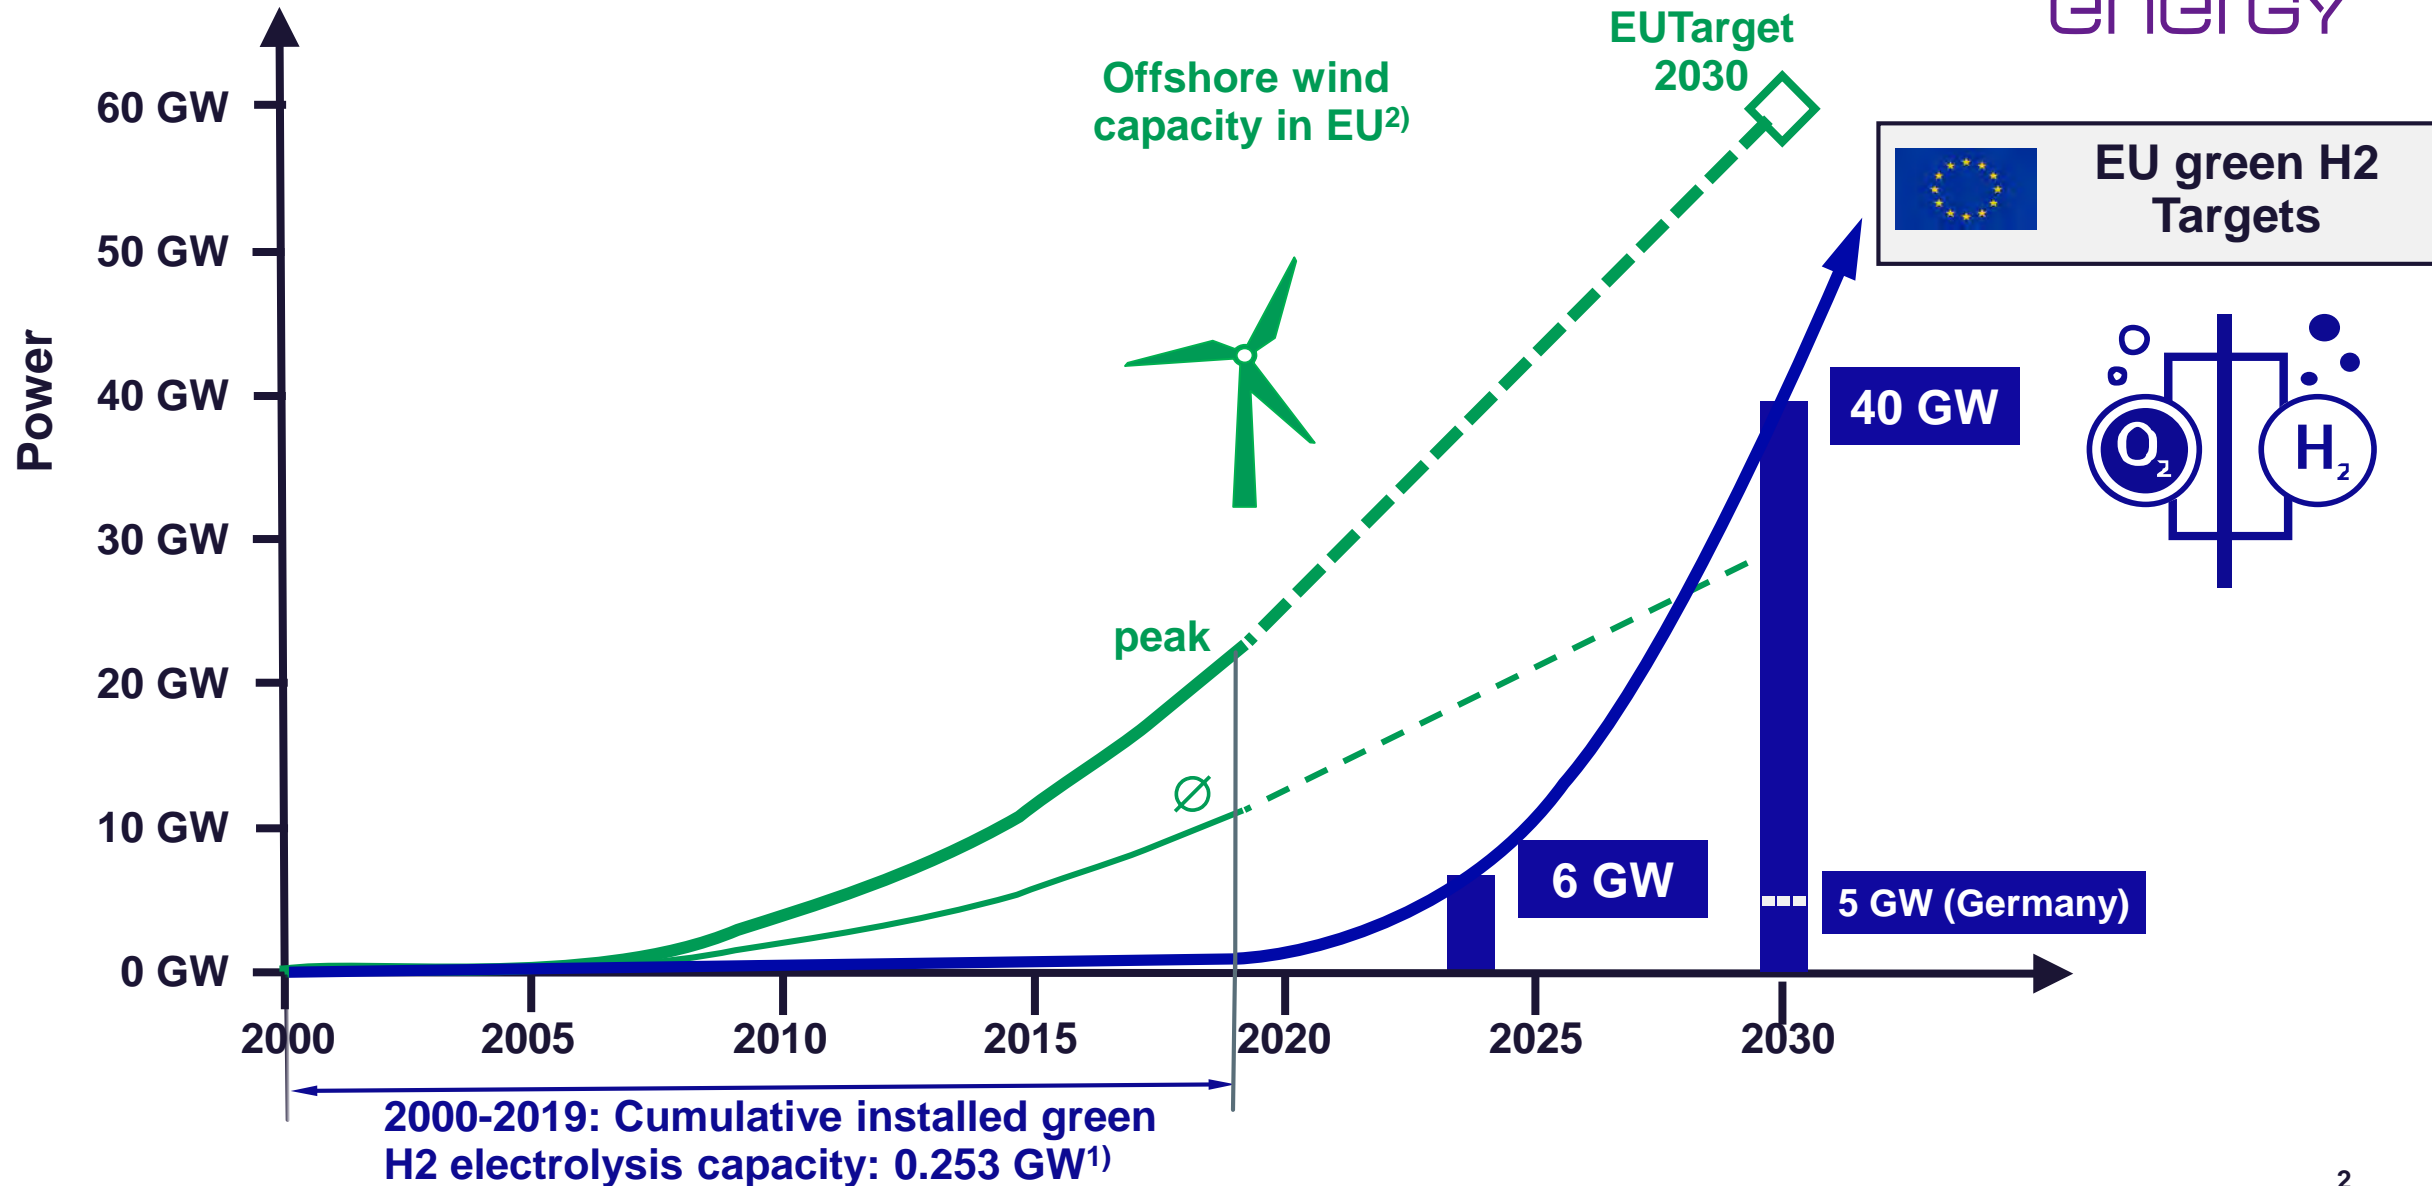

Podiumsdiskussion I:
Wasserstoff – Chancen für die deutsche Industrie

Deutsche Wasserstoffvollversammlung, 26.01.2021

Prof. Dr. Thomas Thiemann

The challenge.....

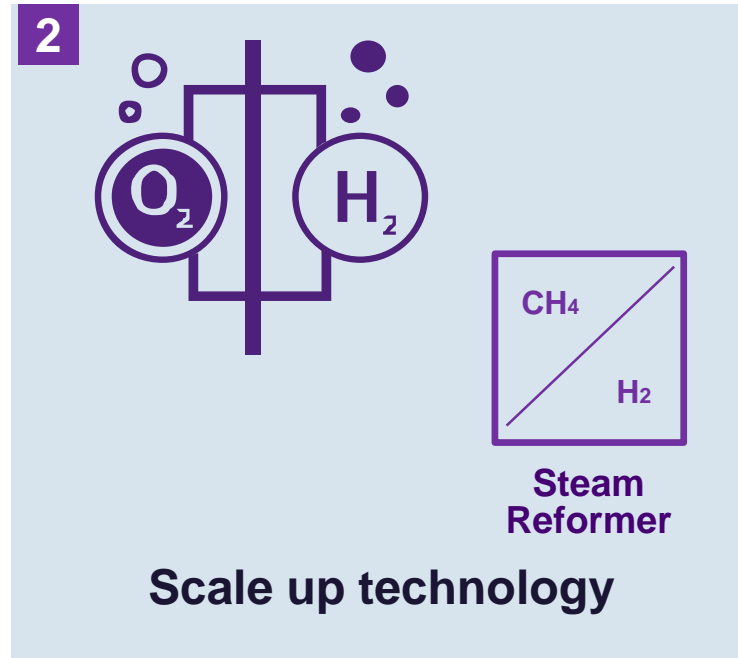

We need to act now to reach the ambitious goals in Europe and Germany in regards to the Hydrogen Strategies!

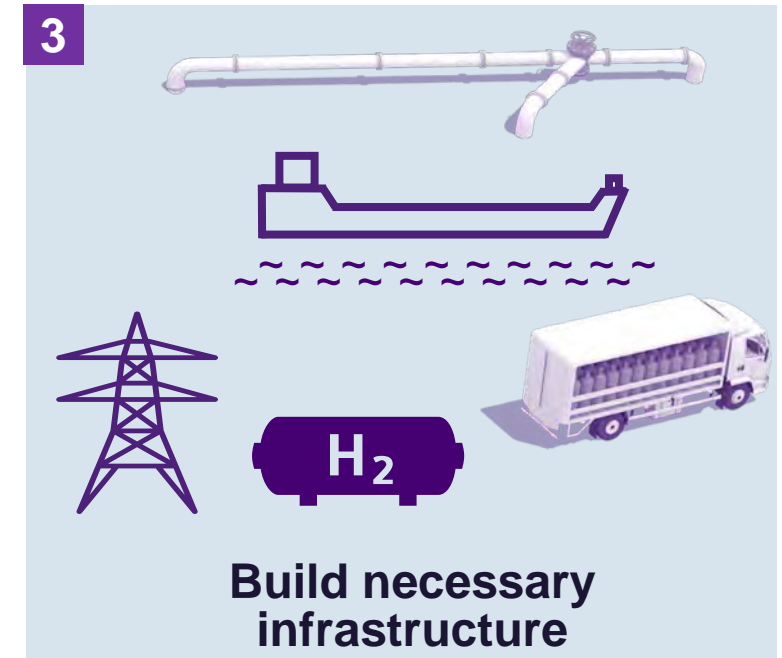

Need for sufficient renewables

Need for business case of climate neutral hydrogen

Need for necessary infrastructure

§ Regulatory framework: Has to value CO₂ reduction and needs to be technology neutral – necessary now!

Prof. Dr. Thomas Thiemann

Senior Vice President Energy Transition Technologies

Siemens Energy

Strategy & Technology and Innovation (SE ST&TI)

Rheinstr. 100

45478 Mülheim an der Ruhr, Deutschland
