NOW Journal #12 – July 2021

[BMVI provides funding to support the procurement of fuel cell cars for fleets](#)

The Federal Ministry of Transport and Digital Infrastructure (BMVI – Bundesministerium für Verkehr und digitale Infrastruktur) is providing funding to support the procurement of climate-friendly fuel cell passenger cars in fleets. Another call for funding is now being made within the scope of the National Innovation Programme Hydrogen and Fuel Cell Technology (NIP 2). A total of up to 15 million euros is being made available for this purpose ...

[Funding for fuel cell drives at the Stuttgart waste management authority](#)

The Stuttgart waste management authority (AWS – Abfallwirtschaft Stuttgart) will in future also procure waste collection vehicles and sweepers powered by fuel cells. This is being undertaken against the background of the changeover of the vehicle fleet to alternative drive systems. In this context, Secretary of State Steffen Bilger handed over a funding notification from the Federal Ministry of Transport and Digital Infrastructure to the Managing Director of AWS, Markus Töpfer, on 28 June 2021 ...

[National Hydrogen Council hands over action plan to federal government: Detailed recommendations for action for the next legislative period](#)

To achieve its climate policy goals, Germany must quickly take ambitious steps to ramp up the hydrogen economy. The "Hydrogen Action Plan Germany 2021 – 2025" ("Wasserstoff Aktionsplan Deutschland 2021 – 2025") contains 80 proposals from the National Hydrogen Council (NWR) for the next federal government. The 26 experts of the body advising the Federal Government handed over the Action Plan to the Head of the Chancellor's Office, Prof. Helge Braun, today ...
