[KVB, RheinEnergie and Ford put innovative charging infrastructure into operation with the MuLI project](#)

Cologne's public transport company KVB (Kölner Verkehrs-Betriebe), RheinEnergie and Ford have officially put the innovative charging infrastructure of the MuLI project into operation in Bocklemünd. The MuLI project – Multimodal Charging Module Integration – harnesses, for example, the braking energy of the city's rail system to charge the KVB's battery-powered buses and, at the same time, vehicles with electric drives ...
