3rd annual NaKoMo conference: Forging new paths together

More than 30 representatives from the federal government, states and municipalities, from science and practice, will speak about the opportunities and challenges of sustainable mobility at the digital conference. Issues include fair sharing of public spaces in rural areas, digital solutions for reorganization in urban spaces and how mobility can be designed for crises, such as pandemics ...

NWR sees need for improvement in EU subsidies for hydrogen

A massive ramp-up in hydrogen technology is needed to implement the European Green Deal and to achieve the climate goals. In order to make the investments required for this, the subsidy framework of the EU must be urgently amended ...

NWR pleads for sustainability in hydrogen imports

The German National Hydrogen Council (NWR – Nationale Wasserstoffrat) has adopted sustainability criteria for import projects involving renewable hydrogen and power-to-x products at its meeting on 29 October 2021. NWR chairperson Katherina Reiche said that the rapid set-up of the global hydrogen economy is critical to meeting climate goals. Germany is dependent on hydrogen imports in order to meet projected demand ...
