BMDV funds procurement of electric vehicles for companies, associations and municipalities with up to 1 million euros

The Federal Ministry for Digital and Transport (BMDV) is supporting companies, associations and clubs in electrifying their vehicle fleets. Today, a new funding call begins for the procurement of electric vehicles and the associated charging infrastructure under the Electric Mobility funding guideline ...

New NOW publication: Market development of climate-friendly technologies in heavy road freight transport

For the first time, commercial vehicle manufacturers are providing detailed information on the planned sales figures for trucks with alternative drive systems. According to the report, around three-quarters of new registrations in heavy road freight transport are to be emission-free in 2030. The technological focus is on batteries and fuel cells ...
