BMUV advances global cooperation for sustainable development

For the past two years, NOW GmbH has been working with international partners for the development of sustainable technology on behalf of the German Federal Ministry for the Environment, Nature Conservation, Nuclear Safety and Consumer Protection (BMUV) within the framework of the Export Initiative Environmental Protection (EXI). With cooperative ventures in Namibia, Ghana, Brazil, New Zealand and the Philippines, further EXI projects are now being implemented in the field of green hydrogen and fuel cell technology ...

HyStarter project concludes with the presentation of a hydrogen roadmap for the district of Göppingen.

After more than 18 months, the district of Göppingen yesterday became the first of the 15 HyStarter regions nationwide to complete the project and present the results to the public. Besides determining the potential for hydrogen production and storage, the project also identified needs and requirements, such as in the logistics sector ...
